

Audio Visual

Gamma Media provides a full range of Visual and Audio production services. We offer cost-effective and professional quality production solutions to cover a variety of small scale production needs. E-Learning, corporate, promotional, exhibition and web based productions are our core service markets, from talking heads to more complex scenario driven scenes using actors on location. We can also provide a complete music production service covering a wide range of musical styles and requirements from game FX, flash animation audio through to musical compositions for corporate videos. We can also supply longer more complex audio productions if required. If you require a large scale or complex production we can consult with you and deliver the production solution project managing the entire projects lifecycle ensuring quality and service from third party production companies. We can also help with scheduling, reducing costs, negotiating and casting. Our range of services include:

- Video Production
- Editing
- Pod and Vod Casting (Web Video)
- Actor Sourcing
- Special Effects
- Animation
- Photography
- Voice Over
- Music Production
- Production Consultation
- DVD Authoring
