

## Subscription Based

Paid for subscription sites are a standard across the internet to deliver services to paying customers. The website may be a magazine, video or image driven, dating or a community website. Subscriptions can be added to any type of website whether publication or social networking.

### Bespoke Builds

There are occasions when the only solution is a complete build from the ground up. This could be because you have specific requirements that open source can not provide, or you want to have complete control over every feature of the website. Gamma Media can provide a range of bespoke E-Commerce solutions to fit your technology platform or aspirations for the website. We can build sites on a number of different platforms such as PHP/MYSQL, MSSQL/ASP, Ruby on Rails. For more information please contact us.

### Open Source ACE & Joomla

Our social networking packages already have subscription systems within them however for publication and content control we use Joomla with a subscription component called ACE.

ACE Subscription features include:

- Multiple payment processors via our processor API ( Manual Transfer handling, Paypal, Authorize.net, 2Checkout, CCBill, Paycom...)
- MicroIntegration API to attach PHP code to payment plans
- Already features MicroIntegrations for: emails, htaccess, mysql queries, setting of repository, docman or VirtueMart groups, restricting of listings amount of Mosets Tree and many more
- Multiple payment plan options (Paid, Free, Lifetime, Trials, Global free trials)
- An easy and comprehensive front- and backend and easy customization - you will have your memberships set up in a breeze.
- Discount Coupons
- ACL Features for visibility of plans (hierarchical setup of plans)
- Other Features: Global Free Trial, customized pages, easy backend workflow
- Languages currently fully supported: english and german
- Languages currently partly supported: spanish, french, brazilian portuguese and italian
